

# DAILY DEMOCRAT.

FOR CONGRESS,  
COL. WILLIAM PRESTON.

TUESDAY, JUNE 19, 1855.

For Amusements, Auction Sales, & Steamboats, see appropriate heads.

Our Correspondence.—We call particular attention to the Correspondence—Letter from Bloomfield—One from Shelby County, and a third from Scottsville, Ohio. An interesting matter will also be found, well worth reading.

Should any carrier fail to deliver the Democrat promptly, word left at the office will remit the neglect.

The abundant showers of Sunday night were timely. The ground in many places was beginning to take.

They are having some scrub races over the Queen City Course. Mile heats in harness—best time reported, 2:55, won, 3:26.

Our terms are cash to all country subscribers. If, therefore, after due notice, subscriptions are not renewed, all names in arrears will be struck from the list. Let our friends remember.

THANKS.—We are indebted to the polite attention of the American and Adams Express Companies, for Cincinnati papers of yesterday, in advance of the mail—as usual.

Some thief entered the Clerk's office on the steamer Hungarian, on Saturday night, at Cincinnati, and stole a small sum of money and a valuable revolver.

The Commercial Reports which we furnish are reliable in every particular. We ask the attention of merchants and others at a distance, especially, to our market reports.

A young girl named MOLIER, whose parents reside in Covington, committed self-destruction on the night of the 13th inst., by throwing herself into the Licking river, from the Suspension bridge.

Everybody asks us—have you heard from the Court of Appeals in relation to the Mayoralty question? We have not, but suppose the case will be disposed of in the Court's own good time. Let us be patient.

Among the passengers on the steamer David White, which reached our city yesterday, were the wife of ex-President Taylor, Mrs. Bliss, her daughter, Mr. Moore, of New Orleans, and several other distinguished persons.

It will be seen by reference to "River Column," that the David White is placing herself in the front ranks of steamboats in point of speed, when we consider the many landings she makes, and the amount of business transacted on the way.

The storm of Sunday night was quite severe in several portions of the country. Some ten miles on the Lexington Turnpike fences were blown down, trees limb'd and broken. The grass within the range of the storm was completely flattened.

FIVE TO ONE.—Yesterday, about 12 o'clock, at the corner of Hancock and Walnut, five men jumped on one person, to whip him. They didn't accomplish much, we suppose, because they were in each other's way. Officers Gilmore and Tiller arrested all of the five—the others couldn't be found.

Our evening edition is supplied to all portions of Portland, Shippingport and Jeffersonville at an hour as early as possible after issue. Terms, 7½ cents per week, or 15 cents every two weeks, payable to the carrier. Orders left at the office will meet with prompt attention.

TRUSTEES OF PUBLIC SCHOOLS.—The Board of Trustees of Public Schools were called together last night, and we called at their room to see what was to be done. We found six members out of twelve in the city, in attendance, notwithstanding the emergency that called them together. A meeting is called for to-night. Will my members fail to be present?

Maj. Elijah T. Nuttall, of Henry County, Ky., was at Bedford, attending Trimble Circuit Court, yesterday, and being called for a speech, responded in a most happy manner. He took a plain, comprehensive view of the political questions of the day, and expressed his most decided condemnation of the modern fang, who arrogate to themselves the name of the American party. A few more such able champions in the field, and the monster Know-Nothing will bite its diminished head.

We had the pleasure of a visit from M. D. Porter, Esq., of the Cincinnati Commercial, yesterday.

He has fully, and successfully, tested the experiment of publishing a small paper filled with news, as the best adapted to the wants of the people.

The immense circulation his daily and weekly has acquired, but attest the fact that the Commercial is a thorough-going, fast paper, keeping pace with the full news of the day.

HORTICULTURAL EXHIBITION.

Owing to certain effects, incident to the nature of the weather for the past two weeks, the display of flowers, fruits, and vegetables was not as large in numbers as some previous exhibitions. This, however, was fully atoned for in the elegant and rare taste which characterized all the contributions, and above all, by the presence of a large assemblage of beautiful ladies, who added a peculiar charm to these weekly reunions, elevating and refining all who come within their influence.

FLOWERS.

Miss Florence Anderson exhibited a large basket of verbenas, *santana mutabilis* (changeable), geraniums, nasturtiums, and a mass vase, filled with fine flowers, all displaying, as usual, a cultivated taste.

Mrs. Ada Anderson—Exquisite flower basket, arranged with superior taste, (first effort.)

Miss Mary S.—One small flower basket, very tastefully blomed with brilliant colors.

Miss Louisa Hite—One elegant hand basket, of lilies, la marque, dour, terry, rasse, &c., fringed with the bloom of the Venetian sun.

J. E. Bryan, Beachland—One very rich and large mass vase, filled with a great and choice variety of roses.

Mrs. B. C. Levi—Two choice table bouquets, of honeysuckles, liliacées, and various roses, arranged with excellent taste.

Mrs. M. Adreda, Thompson, Selma—Large bouquet of jessamines, 8 varieties of lilies, roses, verbenas and geraniums, fringed with spruce, tree in bloom, forming a tall, exceedingly brilliant pyramid; bouquet supported in a curious Chinese vase—a rich display, interspersed with several varieties of lilies, which enhanced the beauty of the arrangement of flowers. Mrs. Angerian Gray—Large basket of fuchsias, honey-suckles, verbenas, choice roses and spires. Hobbs & Walker—A large table pyramid bouquet, composed of a variety of roses and other rich flowers—elegant. Henry Nantz exhibited 4 hand bouquets, composed of 176 varieties of pinks, exquisitely blomed. Mr. Nantz deserves especial praise for the energy, skill and success with which he has prosecuted the cultivation and improvement of this charming variety of flowers, which is so highly prized for its delicious fragrance.

FRUITS.

Jacob Johnston exhibited Napoleon Bigarreau, largest of the season; also late Duke and fine raspberries. Wm. G. Bakewell—white Bigarreau, or Grafton. C. C. Carey—Fine gooseberries and raspberries. Mrs. A. B. Vanwinkle—Large English gooseberries. Lawrence Young exhibited Madeline pear.

Vegetables.

Godfrey Stilts exhibited large Bassano beets, orange carrots, ox-heart cabbage, silver-skin onions, and drum-head cabbage. Chas. Roberts—Fine meadow potatoes. John Johnson—Kohlrabi—turnip 19 inches in circumference, the largest specimen of the season. Geo. Hoskinson exhibited pure neanche potatoes; very fine cauli-flower, well-headed and large, measuring 25 inches in circumference; pure bloody beets, well grown

## RIVER AND WEATHER.

There were last night eight feet five and a half inches water in the canal, by the mark, and falling day by day. The weather was not uncomfortable, but hot.

The pressure on all our columns, compels us to leave out several items, and cut short our notices.

The David White, one of the fastest and best boats in the country, is the regular packet this afternoon, at 12 o'clock, leaving on Fifth street, near Chestnut, west side, the above described articles of Furniture. At 12 o'clock precisely, the Bay Horse, Rockaway and Harness, and Buggy and Harness, will be sold.

The great Pennsylvania is advertised to be down this morning, and will go over the falls at 10 o'clock.

The fleet Rainbow, with our very particular friend Capt. Hollister on deck, and Huston in the office, is the regular packet this morn., at 3 o'clock, for Evansville and Henderson.

The Brazil is advertised this morning for Pitts,burg, and will leave at 4 o'clock, this afternoon.

ST. LOUIS, June 19.—P. M.

The river is falling. The weather is hot and sultry. The tide is low, with about nine feet of water on the bar.

The steam and incomparable Jacobs Steamer is the first boat to day at 12 o'clock, for Cincinnati. The Steamer has come and will continue one of the most popular boats on the Ohio or Mississippi river. Read their advertisement.

THE K. N. PLATFORM.

The following are the "Platform and Principles," as finally adopted by the N. N. National Convention, at a late hour, Thursday night:

Platform and Principles.

The solemn acknowledgment of that Almighty Being who rules over the Universe—who presides over the Councils of Nations—who conducts the affairs of men, and who, in every step by which we have advanced, distinguished us by some token of favoritism, has given us a sense of security for the future.

—The civilization and development of a sentiment of profoundly intense American feeling; of passionate attachment to our country, its history and its institutions; of admiration for the pure and noble character of our countrymen; of veneration for the heroism that precipitated our Revolution; of emulation of the virtue, wisdom and patriotism that framed our Constitution, and first successfully applied its provisions.

The maintenance of the union of these United States, as an independent nation; or, to use the language of Webster, "the primary object of patriotic duty." And hence,

Let opposition to all attempts to weaken or subvert it.

Uncompromising antagonism to every principle of policy that endangers it.

Let all the means of an equitable adjustment of all political differences which threaten its integrity or perpetuity.

The suppression of all tendencies to political division, founded on "geographical discriminations" or "race," but that there is a real difference of interest and views between the various sections of the Union.

The full recognition of the rights of the several States, as expressed and reserved in the Constitution; and a careful avoidance, by the General Government, of all interference with their rights, or of any declaration of unconstitutional by the power of the nation.

The adherence to the Constitution of these United States as the supreme law of the land, so far as it is concerned.

—The adoption of a code of laws, which will be the basis of all its compact—so far as possible—so that each other's laws and interests may be secured.

—The right of reverential obedience to the laws, whether National, State, or Municipal, until they are repeated or declared unconstitutional by the power of the nation.

—A code of laws, and a strict regard for those sets of state-manship, which are to be contrasted with their being of the nature of compacts and agreements; and so, to be considered a fixed and settled national code.

—A radical revision and modification of the law regulating immigration, and the settlement of immigrants. Offering the honest immigrant, who from love of liberty or hatred of oppression, seek an asylum in the United States, a friendly reception and protection. But unqualifiedly denouncing the transmission to our shores of felons and pirates.

—The essential modification of the Naturalization Laws.

The repeal by the legislatures of the respective States, all State laws allowing foreigners not naturalized to vote.

The repeal, without retroactive operation, of all acts of Congress making grants of land to unnaturalized foreigners, and allowing them to vote in the same manner as citizens.

# THE DAILY DEMOCRAT.

## ESTILL SPRINGS, Estill County, Ky.

AGRICULTURAL DIVISION OF THE PATENT OFFICE—IMPROVED VARIETIES OF WHEAT FROM FRANCE.—There have lately been imported from France three varieties of wheat—the Neapolitan white wheat well suited for the Southern States, but too tender for the Northern States; Small wheat, and the early No. wheat. As the two latter are the only opening some days before our common varieties of wheat, if they otherwise succeed in this climate a great point will be accomplished. A single week gained in the ripening will often secure the crop for the market before the most favorable and seasonable wheat is ready for the market.

Those wishing to visit the Springs are informed that last season a road was opened to the village of Estill, which is to be completed, and that by the 1st of June it is confidently expected that a line of stage coaches will run through from Lexington to the Springs in daylight.

is much sought after an account of its proximity,  
and would suggest well as a March wheat, if sown  
early.—*Editor.*

It is a striking and significant fact which has been strongly overlooked by theologians, and never ignored, but more or less, that throughout the Bible there is but one definition of religion.

True religion and undefended before God and the Father, is this: To visit the fatherless and widows in their affliction, and keep himself unsupposed from the world.—*James 1, 26.*

DECLINE OF KNOW-NOTHING.—In the Westfield township, Monroe county, Ohio, and there was nothing had a majority of forty last fall, and there was a tie in the spring election, the same candidates who were tried for Magistrate on the 1st inst., when they reconstituted up.

Very truly.—Somebody says that whatever may be the charm and social endearment of the breakfast table, they are entirely destroyed by making it the arena for "feats of strength" between the butter and coldfish balls.

AN AGREABLE SIGHT.—A man told an editor that to kill a sister was sure and holy. Not being blessed with a sister, he kissed a very pretty cousin, and says it answered every purpose.
